COUNT TISZA'S SPEECH REGARDED AS FORECAST

LONDON, Jan. 26.-That Kaiser Wilhelm plans to make his fiftyeighth birthday to-morrow the occasion for another peace move, with more acceptable terms to the Entente, was reported to-day from several different sources.

The nearest thing to an official hint of this plan was read in the speech made yesterday to the Hungarian Parliament by Count Stephen Tisza, the Hungarian Premier. "We are inclined to continue a further exchange of views regarding peace with the United States Government," was the way the Hungarian statesman put it.

It purported to be based on private information from Germany and planned to be "the first promoter of universal peace and would propose that all parties meet forthwith to discuss this first and principal article of the war's termination — the reorganization

of future peace." Reports from Holland indicate that some sort of a reply to President Wilson's speech is being considered by BERLIN, Jan. 26 (by wireless to officials in Berlin. Since the Amerihe expressed, such approval must be made in a speech or statement. A pronunciamento from the Emperor
